# Art and Design at Bentham CP School

## Our Curriculum Aims:

At Bentham CP School, in art, craft and design we want our children to be creative and engaged, with the knowledge and skills to experiment, invent and create their own works of art, craft and design. They should be independent, critical thinkers and develop a deeper understanding of the subject as well as art forms that have shaped our history and culture.

## Our Curriculum Drivers:

**Our place in our world**

**Our Voice**

**Ourselves**

**Our Ambitions**

### **Implementation**

Our children should be able to organise their knowledge, skills and understanding around the following key learning concepts:

**To develop ideas**

**To master techniques**

**To take inspiration from the greats**

These key learning concepts underpin learning in each milestone. This enables children to reinforce and build upon prior learning, make connections and develop subject specific language.

The vertical accumulation of knowledge and skills from Years 1 to 6 is mapped as follows:

## **Impact**

## **Assessment**

Through the explicit teaching of the Art skills, both the teachers and the children assess their learning continuously throughout the lesson. Throughout and at the end of a unit of work, children will reflect on their learning alongside their peers and their teacher. Our assessment systems enable teachers to make informed judgements about the depth of their learning and the progress they have made over time.

Subject Leader Portfolios will collate evidence of learning across the year. This will include pupil and parent voice, photographs and examples of children's learning both within and beyond the school day.
