

Maths Rapid Recall: Step 7		7.1
Target	Know decimal, fraction and percentage equivalence	
Detail	This target is about knowing the equivalence between a decimal, fraction and percentage, e.g. $0.75 = \frac{3}{4} = 75\%$	

Maths Rapid Recall: Step 7		7.2
Target	Square numbers to 12	
Detail	This target is about knowing all the square numbers and recognising the symbol for a square number, e.g. 4 squared is 16 $4^2 = 16$	

Maths Rapid Recall: Step 7		7.3
Target	Square numbers of multiples of 10 up to 100^2	
Detail	This target is about using what is known about square numbers to recall square numbers of multiples of 10, e.g. If 4^2 is 16 then 40^2 is 1 600	

Maths Rapid Recall: Step 7		7.4
Target	Doubles and halves of all multiples of 10 to 10,000	
Detail	This target is about being able to double and halve any number between 10 and 10,000 that ends in zero, e.g. Double 4,340 is 8,680 Half of 6,250 is 3,125
